Seeking Full-time Welding Inspector / Technician

The Materials Joining Innovation Centre (MaJIC) located in Kirkland Lake, Ontario is an independent, not-for-profit corporation with the mandate to improve the Welding Industry in Canada.

MaJIC currently offers applied research, non-destructive inspection, technical services, welding engineering, procedure design, materials testing and contract training to the welding industry. We are looking to expand our team with the addition of experienced technical personnel.

MaJIC is seeking a hands-on Welding Inspector or Engineering Technician to provide field inspection services to our customers, to support ongoing Applied Research projects and to assist in the materials testing laboratory. The successful candidate will be:

- Certified in multiple NDE methods
- Able to work onsite conducting inspections and quality audits
- Document and report findings of inspections and audits
- Assist with the development of project plans and execution of projects
- Develop, review and validate welding procedures to Canadian welding standards
- Assist with daily test lab activities
- Provide leadership, supervision and training to junior employees
- Facilitate regular reporting, reviews and audits for CEO and clients
- Mediate and/or resolve conflicts
- Manage and coordinate preparation of technical documents for submission to customers and/or governing bodies.
- Ensure Quality Assurance and Quality Control
- Enforce Health and Safety Rules & Regulations.

Successful candidate must be certified in more than one NDE method. CWB Engineer, CET, CTech, and/or IWT designations are preferred. The candidate must also have excellent communication and team building skills.

Applications must be postmarked or dated no later than midnight EST on **March 2nd 2018**. Send applications to: jeff.molyneaux@majic-ca.org
